

Geography Work – Year 9.

Focus of Work: Weather and Climate and Climate Change.

For those with internet access.

For those with access to GCSEPOD, please click on the following link.

<https://members.gcsepod.com/shared/playlists/playlist/2536375/67952>

This will show you all of the Pods focusing on Weather Climate and Climate Change. Watch the Pods and then make an illustrated A3 revision booklet focusing on:

- What is the different between weather and climate?
- What is climate change?
- How might our lives change because of climate change?

For those without the Internet

1. Thinking back to the Beast from the East two years ago – Describe in detail how you and your family were affected.
2. Think about the work we have done on Climate change. Explain how life in the UK might need to change if we were to see average temperatures increase.

Geography Work – Year 10

Focus of Work: London a World City.

For those with internet access.

For those with access to GCSEPOD, please click on the following link.

<https://members.gcsepod.com/shared/podcasts/title/11555/71104>

This will show you all of the Pods focusing on the opportunities and challenges of London. Watch the Pods and then make an illustrated A3 revision booklet focusing on:

- How does the London Transport system work?
- Is London a city of inequalities?
- How has London been affected by migration?

For those without the Internet

1. Think about your local town or village. Describe the main challenges that it faces (traffic/population/pollution?)
2. Explain why people live in your chosen area. (Pull factors)

Geography Work – Year 11

Focus of Work: Energy

For those with internet access.

For those with access to GCSEPOD, please click on the following link.

<https://members.gcsepod.com/shared/podcasts/title/12124/75096>

This will show you all of the Pods focusing on the opportunities and challenges of London. Watch the Pods and then make an illustrated A3 revision booklet focusing on:

- Why is the demand for energy increasing?
- How can energy be made more sustainable?
- What are the different types of non-renewable and renewable energy?

For those without the Internet

1. Consider how you could reduce the energy use in your home. Explain ways in which you could reduce your energy use.
2. To what extent would reducing energy usage in your home be difficult?
