

June 2026

Dear Parent/ Carer,

### Hot weather forecast

In light of the recent MET updates for the weather forecast, I am writing to parents to make them aware of our arrangements for tomorrow.

According to the latest forecast, we are expecting some very hot weather tomorrow, Friday 19<sup>th</sup> June. This week we have already spoken to our young people about the importance of keeping hydrated and bringing in a water bottle which is refillable and using our water refilling stations across the site. We have also made adjustments to the school uniform this week regarding relaxing the wearing of blazers.

For the following days, we would appreciate if you could reinforce the importance of staying hydrated during hot weather with your child. We would also ask that sun cream lotion is applied before the school day and recommend that they bring in some additional sun cream into school to reapply. If your child suffers from hayfever, please ideally administer any medicine before school.

We will also give students the added option of wearing their **Appleton School PE kit tomorrow or their regular Appleton School uniform with school shoes**. Please note that students should not be wearing a mix of their regular Appleton School uniform with their PE trainers and should not substitute for any other non-school uniform clothing items.

I will continue to keep these arrangements under review as the forecast models update over the weekend for next week.

Thank you for your continued support.

Yours sincerely,

Ms S. Cox  
Headteacher
