

KS4 SCIENCE:EVERLEARNER

INSTRUCTIONS

All year 9 and 10 students studying GCSE Science have been assigned to classes and set classwork to complete on the website EverLearner. The address is: <https://theeverlearner.com> and can be accessed on a smart phone, tablet or laptop.

This work is the exact topics you would be studying in school with your teachers and the amount of work set is based on the number of lessons you would normally have in this period. There are video lessons and note taking facilities built into the platform and short assessments that students can repeat multiple times until they achieve the pass mark of 80%.

All the work is available from Monday 20th April at 9am to be started on Monday the 27th April and will close at 3pm on Friday the 22nd of May. It is all mandatory and will be tracked and monitored throughout the period it is open by staff from the Science Department. This remote learning will also be assessed when we return to school.

LOGIN: If you have misplaced your login email sent to last month when we registered you for the website the way to reset your password is:

1. Click on Your Account in the top right corner.
2. Click on forgotten password (it is small).
3. Put your school email into the email box and click reset password.
4. Check your school email for new password.
5. Get started on EverLearner.
